The North Carolina Sustainable Energy Association (NCSEA) is the leading non-profit organization working to develop and advance public policies and market development efforts that will grow North Carolina's sustainable energy economy, create jobs and expand economic opportunities. To accomplish its objectives, NCSEA promotes policies, regulations and ordinances that foster growth in the emerging sustainable energy sectors in North Carolina and make renewable energy technologies and energy efficiency a part of everyday life. In addition, NCSEA develops education and outreach programs to inform the public and key stakeholders of the benefits arising from sustainable energy solutions and enabling them to take advantage of these benefits. NCSEA also is heavily engaged in economic development at the State and local level seeking to assure that North Carolina presents a receptive environment for entities in the renewable energy and energy efficiency sectors.

NCSEA Business Member Code of Ethics

Business members will conduct themselves honorably, responsibly, ethically, and lawfully so as to enhance the reputation of the renewable energy and energy efficiency industries. This includes: issuing truthful and objective public statements, advertisements, and performance claims; complying with all applicable local, state and federal laws, ordinances, regulations and codes; and conducting business in a manner that protects the environment and holds paramount the health, safety, and welfare of the public.

MEMBERSHIP – SUPPORT NCSEA’s MISSION

The mission of the North Carolina Sustainable Energy Association (NCSEA) is to ensure a sustainable energy future by promoting renewable energy and energy efficiency through education, public policy and economic development.

Due to the work of NCSEA and its valuable members and partners over the last three decades, we have built the important foundation for future growth and development of sustainable energy solutions and innovations across our great state, and the Southeast. Join with NCSEA as we accomplish much more in the future!

INFLUENCE & ACCESS

Board of Directors Election 
Inform programmatic work by participating in the annual election of NCSEA’s Board of Directors election, which takes place each fall.

Energy Executives Roundtable 
Participate in semi-annual Energy Executives Roundtable meetings. The events are designed to allow energy executives to inform NCSEA’s work while providing an opportunity to discuss industry trends and network with peers.

Quarterly Conference Calls 
Participate in quarterly conference calls with the Executive Director and NCSEA staff. Learn about latest energy-related policies and regulations, preview upcoming developments and events, and share information with NCSEA.

KNOWLEDGE & CONNECTIONS

Webinar Discounts 
Receive discounts to select webinars on a variety of sustainable energy related topics held throughout the year. The webinars will include presentations by NCSEA staff or energy experts from across the state, region or nation.

Event & Training Discounts 
Receive discounts to select educational forums, trainings and networking events on a variety of sustainable energy related topics held throughout the year. These events bring together top energy experts, business and community leaders, and key decision makers in North Carolina and beyond.

NCSEA News Service 
Receive regular emails that include sustainable energy related news summaries and updates from across North Carolina and around the nation. This valuable information will ensure you and your business are “always in the know.”

Regulatory Summaries & Government Affairs Information 
Access detailed regulatory summaries and government affairs information through the NCSEA website. The materials reflects the extensive work performed by NCSEA at the NC General Assembly, NC Utilities Commission and other state and local government agencies.

BUSINESS EXPOSURE

Sponsorship Opportunities 
Sponsor NCSEA events and increase exposure for your business. Sponsorship levels and benefits will vary depending on the event, but may include recognition on event materials, complimentary registrations, and exhibit opportunities.

NCSEA Business Member Directory 
Post your business profile and contact details in the updated NCSEA Business Member Directory. The online resource is used widely by potential customers to connect with sustainable energy businesses in North Carolina.

NCSEA Logo Program 
Display the NCSEA logo on your website, at the entrance of your business, and on your print and electronic marketing materials to show customers your involvement with NCSEA and commitment to North Carolina’s sustainable energy economy.

NCSEA Green Jobs Board 
Upload an unlimited number of job announcements to reach qualified candidates through the interactive NCSEA Green Jobs Board.

Member Logo on NCSEA Website 
Display your company logo on the NCSEA website. A member box will prominently display and rotate through NCSEA member logos.
