

Government Relations Intern

Overview

Strata Clean Energy is one of the country's leading utility and commercial solar and storage providers and is based in Durham, North Carolina.

Strata offers project development, engineering, procurement, construction, operations, maintenance and financing solutions for projects in any region, from utility-scale solar farms to commercial retailers and data centers. Our in-house approach makes us highly efficient and nimble, allowing us to be the most competitive solar provider in the industry.

Our mission is to deliver value to our customers, communities, and future generations by creating new opportunities for clean energy.

We are looking for a paid intern to join our Government Relations team. The position will be part-time during the spring and fall semesters and extend to full-time during the summer months. This position will be an in-person position, but there may be opportunities to work remotely from time-to-time on a case-by-case basis.

Responsibilities

- Provide research and summaries of issues, opportunities, policies, and regulations, and evaluate emerging solar energy and energy storage markets
- Monitor solar and energy storage industry news help flag possible issues and opportunities in relevant jurisdictions
- Attend state and federal legislative and regulatory committee meetings
- Perform administrative tasks such as preparation of communication materials, organization of files and issues within tracking system, and scheduling meetings
- Other duties as assigned

Qualifications

- Currently pursuing an undergraduate or graduate degree with a graduation date of no later than December 2023
- Demonstrated interest in clean energy and policy and/or government
- Strong research and communication skills
- Strong writing skills
- Past State or Federal Legislative, Executive or Regulatory experience/internship preferred
