

Job Description | Power Market Analyst

About Us:

East Point Energy is a development firm focused on the origination, construction, and operation of energy storage projects. Our team is currently developing gigawatts of energy storage projects throughout the country, helping to transform the grid into a renewable, resilient, and affordable system for generations to come. East Point is a wholly owned subsidiary of Equinor, a broad international energy company committed to long-term value creation in a low-carbon future.

East Point's nimble team is comprised of hard-working, strategic problem solvers who are passionate about sustainability. We are technology and contractor agnostic, allowing us to find the best solution for each project. The firm's executive team founded East Point in 2018, bringing decades of combined energy development experience and over 1.8 gigawatts of solar, wind, and energy storage projects currently in operation across the United States. Success for East Point is measured by delivering affordable energy storage solutions that benefit the grid, communities, and our environment.

East Point is committed to cultivating and preserving a culture of inclusion and connectedness. We hire great people from a wide variety of backgrounds, not just because it's the right thing to do, but because it makes our company stronger. Studies have shown that women and people of color are less likely to apply for a job unless they feel they are fully qualified in every way. We also know that sometimes the best candidates do not check every box. If you are interested in learning more, we would love to hear from you.

Title: Power Market Analyst

The Power Market Analyst is responsible for supporting our project acquisition, divestment, and origination efforts through data synthesis, market research, and financial modeling. The position reports directly to the Director of Business Development and will collaborate with a variety of internal and external parties.

Roles & Responsibilities:

- Perform meticulous data synthesis and analysis to provide insightful, data-driven recommendations and reports to stakeholders
- Conduct market research to identify new renewable energy deployment pathways and opportunities
- Leverage results of real-time asset performance to inform future investment opportunities
- Support the development and management of financial models for renewable energy assets using various financing structures
- Manage relationships and engagements with third party consultants who deliver market and ad hoc analyses

- Perform other related duties and special projects as assigned

Skills:

- Strong analytical skills with the ability to collect, organize, analyze, and communicate statistical trends in complex data sets using Python, R, Microsoft Power BI, or other data analysis tools
- Proficiency with Microsoft Office Suite (Word, Excel, PowerPoint, OneNote, Teams, Outlook, etc.)
- Strong research skills
- Ability to communicate across a broad spectrum of technical understanding - written, verbal, and non-verbal

Characteristics of an ideal candidate:

- Passion for renewable energy development and the environment
- Creative problem-solving ability and solutions-oriented mindset
- Self-starter with a desire to succeed and a focus on creating value
- Team player and leader, proactive attitude
- Organized, attention to detail
- Comfortable with a fast-paced, rapidly changing environment
- Ability to make informed decisions quickly and a bias for action
- Integrity and accountability

Education & Experience:

- 4-year university degree: Bachelor's degree in data analysis, mathematics, statistics, economics, business, finance, computer science, or related quantitative field. Master's degree preferred.
- 1-3+ years of related experience preferred, with a strong preference for experience in a similar quantitative analysis role.

Travel & Time Commitment:

- Limited travel related to industry conferences and company events
- This is a full-time, exempt salaried position. Standard office hours are from 8:30 AM – 5:30 PM EST. The demands of projects may require work outside of these times.

Benefits:

- Health, Dental, & Vision Insurance
- Short-Term & Long-Term Disability Coverage
- Life Insurance
- 401(k) & Employer Match
- Parental Leave
- Paid Time Off, Sick Leave, Holidays
- Education, Parking, and Gym Membership Stipends

Location:

East Point Energy office in Charlottesville, VA

This job description is not inclusive of all requirements of the position. Employees will perform any other duties as may be required by their manager.
